- Dancing
- Singing
- Communication
- Multi-tasking
- Playing piano

Education Background

- Kendriya Vidyalaya High School
Completed in 2021
- Adani University
Bachelor of Engineering
2021-Present

About Me

I'm a student at Adani University with a deep-rooted passion for web development, competitive programming, and all things creative. My days are often spent immersed in lines of code, crafting intricate web applications using a blend of technologies like React.js, Node.js, and my trusty toolkit of C, C++, and Python. Competitive programming is another thing that keeps me busy. Beyond the realms of coding, you'll find me chasing a different kind of rhythm. Dancing and singing have been a part of my life since forever.

I love a good challenge, and that extends to hackathons. I've taken part in hackathons hosted by DAIICT and Nirma University, gaining versatile experience in teamwork, web development, and problem-solving.

As the secretary of ASPDC, I've organized workshops and competitions, building skills in communication, teamwork, and organization.

Feel free to explore my projects, get in touch, or join me as we explore the possibilities of coding and creativity. Let's make every line of code and every note of music count.

Professional Experience

Adani Student Programming and development club (ASPDC) - Secretary

March 2023 - Present

Achievements

2021-22	Won AU-IQM Hackathon
2022-23	Secured Runner Up Position in AUIQM Hackathon
